

INFORMATION

HOURS OF OPERATION
LIFT HOURS: 8:30AM – 4PM DAILY. Weather permitting.

TRAIL RATING
Please be advised that trail rating symbols are relative to each ski area's specific terrain. A blue square trail at Mammoth could be easier or more difficult than a blue square trail at a different resort. No matter your ability, when skiing/riding for the first time on any mountain, start on the easiest runs and work your way up to familiarize yourself with the area.

Hazards and obstacles may exist throughout the season. Flags, fencing, poles, signage and padding are used by the ski area to mark known locations of potential obstacles and hazards. These markers do not guarantee your safety and will not protect you from injury. As part of "Your Responsibility Code," it is your duty to avoid all obstacles and hazards, including those that are marked.

To find the nearest base lodge, look for the purple sign at most trail junctions that will point you in the direction.

IN CASE OF EMERGENCY, CALL 760.934.0611
If you do not have a phone, notify a lift operator or any uniformed employee of the nature of the injury, as well as a description and location of the injured person.

AVALANCHE RESCUE SYSTEM
Ski Patrol utilizes standard 457 kHz avalanche transceivers and the RECCO avalanche rescue system to facilitate rapid location of burials. Neither of these systems prevent avalanches or guarantee location or survival. To avoid accidents, become informed of potential hazardous areas, use common sense, and always ride with a buddy on powder days.

SKI PATROL
Look for Ski Patrol in the red jackets or call 760.934.0611 to report safety issues or emergencies.

HOSTS
Look for Mountain Hosts in the yellow jackets for assistance and safety tips.

UNBOUND 20+ YEARS OF PROGRESSION

- PLAYGROUNDS (Main, Canyon & Eagle Lodge)
To help gain confidence on freestyle terrain, these beginner friendly parks include features like gentle rollers, small snow spines, mini-boxes and jumps that get bigger and longer as you shred through the park.
- FOREST TRAIL PARK (Main Lodge)
After you're comfortable in the Playgrounds, Forest Trail is the next step. Newly re-designed and more flowy than ever, the perfectly placed jumps and jibs make this a favorite among intermediate groms, moms and dads who rip.

- JIBS & MORE (Roller Coaster Express, Chair 4)
This park is packed with intermediate and advanced level rails, boxes and wallrides, as well as super fun snow transitions like bowls, hips, banks and berms from top to bottom. Dial in your line or hang out and session individual features with a few friends.
- SOUTH PARK (Roller Coaster Express, Chair 4)
There's a reason pros come to this park to warm-up and spend their entire day lapping the 18-foot halfpipe, multiple jump lines and super tricky jib lines. The long length mixed with the early sun and lighter winds all combine to create a truly incredible terrain park experience.
- MAIN PARK (Main Lodge)
Mammoth's largest park has set the bar for pro-level terrain parks with its massive, perfectly shaped jumps, technical rails and the 22-foot halfpipe. Countless professional skiers and snowboarders

- have launched their careers right here. For advanced skiers/riders only.
- THE HEMLOCKS (Back Side of Mountain)
Scatter in some hand-sculpted freestyle features into a hike-only part of the mountain, and you've got yourself a freerider's paradise. When snow conditions permit, step downs, kickers and hips are periodically incorporated into the extremely difficult terrain on Mammoth's back side. For advanced skiers/riders only.

- Refrain from using profanity around others – Mammoth is family friendly.
- No smoking in public spaces, including lift lines.

- Only service animals are permitted at the ski area.
- No sledding.

KNOW THE CODE

We're committed to promoting safety. In addition to people using traditional alpine ski equipment, you may be joined on the slopes by snowboarders, telemark or cross country skiers, people with disabilities using specialized adaptive equipment and others. Always show courtesy and be aware that there are elements of risk in skiing/snowboarding that common sense and personal awareness can help reduce. Know your ability level and stay within it. Observe the National Ski Areas Association's "Your Responsibility Code" listed below to ensure a great day on the hill.

- Always stay in control, and be able to stop or avoid other people or objects.
- People ahead of you have the right of way. It is your responsibility to avoid them.
- You must not stop where you obstruct a trail, or are not visible from above.
- Whenever starting downhill or merging into a trail, look uphill and yield to others.
- Always use devices to help prevent runaway equipment.
- Observe all posted signs and warnings. Keep off closed trails and out of closed areas.
- Prior to using any lift, you must have the knowledge and ability to load and unload safely.
