

Whistler Blackcomb Private Hiking Tours

These are private hiking tours where experienced guides take guests on Whistler Blackcomb's celebrated alpine trails. Choose between Green, Blue or Black Routes depending on the ability and time frame of the group. Guides will highlight the diverse wildlife, ecology and geological history along the way. They will cater fully to the group's needs and wishes – it can be a hike with some information, or it can be more of an interpretive talk walk, or the guide can be there to help with the children and add to the experience by taking them to the best spots.

ROUTES

- The route is largely up to the guests, and as these are private tours they can be customized around their individual group needs:
