Built in 1851 and restored to its original glory, the convent is home to the Regional Museum of Kamouraska, a magnificent window to the past and the rich history of this county.

OURS EXHIBITIONS

Three storeys expose the past of the region, presented by local guides dressed in traditional clothing. Found in 1674, the Seigneurie of Kamouraska, agriculture and eel fishing whom were the main source of income will be no stranger to you after the tour. Discover how goods traveled on schooners by visiting the general store.

Discover the story behind the Taché family and the betrayal of the lord while visiting the Seigneurial living room. The guides will also tell you about Anne Hébert and her bestseller Kamouraska, the father of the Quebec Province's flag, Mr. Chaloult and the author of the Canadian national anthem, Sir Routhier.

Immerse yourself in the naval past with the thematic exposition of Prendre les eaux (Taking the waters). Live the experience of tourism and vacations, a signaling of a new lifestyle for the upper class, allowing them to use their free time to flee the urban setting and recharge in one of the most beautiful town of the province.

VIDÉO

During the summer of 1759, the Côte du Sud was set a blaze by British commander Scott and his battalion of 800 men, leaving the thriving and populated seigneuries homeless and foodless.
